

M 408C - Differential and Integral Calculus

Week 4 - 2.8, 3.1

Quest HW 04 - Due Monday at 11:30p.

Gradescope HW 03 - Due **Monday** at 11:30p on Gradescope

§2.8, #3, 9, 44, 48

§3.1, #12, 37, 59

Additional Things:

The best things to study for the exams are:

- a) The course notes
- b) The Quest HW
- c) The Gradescope HW

One useful tool for reviewing is the Quest Custom Review. When you log into Quest there is a place to click “Review.” It is next to “Assignments” and “Grades.” Create a custom review of the questions you missed on the first try. This new assignment is **not** for a grade but is exactly the type of material you should be studying.

Create a custom review and submit the first page (or the whole thing) for an additional 10 points on your HW.
